INFORMATION TECHNOLOGY | CLOUD INFRASTRUCTURE | DATABASE ADMINISTRATION

CAREER OBJECTIVE

Technically grounded IT professional with hands-on experience in Oracle Cloud Infrastructure (OCI), Oracle DB 19c, and Linux system administration, complemented by exposure to Trust & Safety and Generative AI content governance at Accenture Malaysia. Passionate about cloud infrastructure and database systems, I thrive in collaborative, fast-paced environments and am seeking a role where I can contribute my engineering expertise and problem-solving skills within a global organization.

PROFESSIONAL EXPERIENCE

Accenture Malaysia

October 2025 - Present

Trust & Safety Associate (Bengali Speaker)

- Review and moderate user-generated and AI-generated content against global platform safety policies, including child-safety standards.
- Identify and escalate sensitive or policy-violating material with accuracy, neutrality, and confidentiality.
- Contribute to Generative AI Trust & Safety initiatives, supporting responsible AI deployment at scale.
- Collaborate with international teams on workflow improvements and escalation processes.

Smart Technologies (BD) Ltd

March 2023 - September 2025

Solution Engineer | Oracle Cloud Infrastructure | Oracle DB | MySQL

- Designed, deployed, and managed cloud infrastructure on Oracle Cloud Infrastructure (OCI) for enterprise clients across banking and pharmaceutical sectors.
- Administered Oracle Database 19c environments including RAC, Active Data Guard, and Autonomous Database, covering patching, backup, and replication troubleshooting.
- Configured and maintained MySQL 8.0 deployments with replication and InnoDB cluster setups.
- Supported Oracle engineered systems including Exadata Cloud@Customer (ExaCC), Oracle Database Appliance (ODA), and OC3.
- Set up Linux services (DNS, NTP, Proxy) and IPv4 networking, including IPSec VPN tunneling between OCI and on-premises data centers.
- Automated routine operational tasks such as backups, log analysis, and health checks using Bash and Python.
- Provided post-installation support and troubleshooting under SLA constraints during client go-live phases.

KEY PROJECTS

- **Client Name: Agrani Bank PLC**
- **Project: Remittance Application Cloud Migration**
 - Supported the migration of the Remittance Application and Oracle Database 19c to OCI with minimal downtime.
 - Helped configure OCI networking (VCN, subnets, security lists) and IPsec VPN tunneling to the bank's on-premises data center.
 - Assisted in deploying Oracle Autonomous Database and MySQL Database Service with high availability and backup.
- **Client Name: Renata Limited**
- **Project: OCI & Database Migration**
 - Assisted in migrating large-scale databases from on-premises to OCI for enterprise pharmaceutical workloads.
 - Configured OCI networking components and IPsec VPN tunneling between OCI and the on-premises data center.
 - Supported compute, storage, and database performance optimization post-migration.
- **Client Name: West Zone Power Distribution Company**
- **Project: Oracle Database Appliance (ODA)**
 - Assisted in configuring the Oracle Database Appliance (ODA), including networking and NFS setup.
 - Supported the migration of Oracle Database 11gR2 to Oracle Database 19c on PDB/CDB architecture.
 - Participated in ODA provisioning and post-deployment validation.
- **Client Name: Probashi Kallyan Bank**
- **Project: Oracle Audit Vault & Database Firewall (AVDF)**
 - Supported deployment and configuration of Oracle AVDF to strengthen database security and compliance.
 - Assisted in implementing audit policies, monitoring, and alerting across core banking databases.
 - Performed post-deployment validation and basic tuning.

TECHNICAL SKILLS

Cloud & Infrastructure: Oracle Cloud Infrastructure (OCI), ExaCC, ODA, OC3, VCN, IPsec VPN, Disaster Recovery

Databases: Oracle Database 19c (EE, RAC, Active Data Guard), Oracle Autonomous Database / ATP, MySQL 8.0 (Replication, InnoDB Cluster), Backup & Recovery, Database Migration

Operating Systems: Oracle Enterprise Linux, RHEL, Ubuntu; Linux Services (DNS, NTP, Proxy)

Scripting & Tools: Bash, Python, Git, Docker (fundamentals), YAML

Networking: IPv4, DNS, NTP, Proxy Configuration, Site-to-Site VPN

EDUCATION

Bachelor of Science in Computer Science and Engineering

2017 - 2022

North South University, Dhaka, Bangladesh

Higher Secondary School Certificate (HSC)

2015

Cumilla Cadet College, Cumilla, Bangladesh

LICENSES & CERTIFICATIONS

Oracle Cloud Infrastructure (OCI)

- Oracle Cloud Infrastructure 2023 Certified Architect Associate
- Oracle Cloud Infrastructure 2023 Certified Observability Professional

Database & Networking

- MySQL 8.0 Database Administrator Professional
- MySQL Implementation Certified Associate
- Google — The Bits and Bytes of Computer Networking (Coursera, 2023)

Professional Development

- Accenture — Reinvention with Agentic AI Learning Program

LANGUAGES

- English — Professional (IELTS Overall Band Score 7.5)
- Bengali — Native
